```swift
import UIKit
import RealityKit
import PlaygroundSupport

let alert = UIAlertController(title: "My Alert", message: "This is
 an alert.", preferredStyle: .alert)
alert.addAction(UIAlertAction(title: NSLocalizedString("OK",
 comment: "Default action"), style: .default, handler: { _ in
    NSLog("The \"OK\" alert occured.")
}))
let v = UIViewController()
var arView = ARView(frame: .zero , cameraMode: .ar,
 automaticallyConfigureSession: true)
v.view = arView
PlaygroundPage.current.liveView = v
v.present(alert, animated: true, completion: nil)
```
